Subject: I love to fish

I am a Coastsides member and fishing the coastal waters is what I love. We have a boat at Pillar Point that we use on weekends.....almost every weekend. When not out for salmon, which won't happen probably for the next few years, we target halibut and lings. We fish 20 to 40 feet of water only and the rock fish we catch are released unharmed. It hurts deeply if I could not continue to do this and take my kids along. Please be reasonable in your decision. There are good options for all. Thanks for your consideration.
